

Highly effective & compact commercial steam solutions!

iVo Steam machines are the groundbreaking results of careful research by a group of cleanliness and efficiency lovers. They represent the latest innovation in modern multifunction cleaners.

With the detergent facility, dirt and grime is moved incredibly fast, and then vacuumed away. The hygienic water filter system ensures that no harmful residue is ejected into the atmosphere. And of course, no costly replacement filters or bags!

iVo Steam Athena 8

Measurements & Stats

Dimensions 37X30X50 cm

Boiler volume 2,4 litres

Power 3000 W

Steam pressure 8 Bar

Hose length 3 m

Vacuum power 1200 W

Tank collection capacity 5,5 litres

iVo Steam Tekna 5
